Mobile Sales Full Analysis Report

Period: 9 Oct 2021 to 8 Oct 2024 · Prepared 13 October 2026

1. Dashboard overview

The dashboard below summarises three years of mobile sales across 5 brands, 15 models and 19 cities. All figures in this report come from the dashboard and the underlying sales data (3,835 transactions).

2. Executive summary

Total sales reached 769M on 19K units. Sales peaked in 2022 and have since levelled off. Demand is spread evenly across brands, models, days and payment methods, but two cities, Delhi and Mumbai, produce 43% of all sales. About 61% of customer reviews are positive (4 or 5 stars), while 22% are negative (1 or 2 stars).

KPI	Value
Total sales	769M
Total quantity	19K units
Transactions	3,835
Average price per unit	40K

KPI	Value
Average customer rating	3.69 / 5

3. Sales trend over time

Year	Sales (M)	Note
2021	58.8	Oct to Dec only
2022	262.0	Best full year
2023	253.3	3.3% below 2022
2024	195.1	Jan to 8 Oct; about 21M a month, flat versus 2023

By calendar month, July is the strongest (69.6M), followed by March (69.0M), January (68.3M) and May (68.1M). September is the weakest at 56.9M. By day of the week, Saturday leads with 114.6M and Wednesday is lowest with 104.9M, a gap of only 9%.

4. Brands and models

Brand	Sales (M)	Share	2023 vs 2022
Apple	161.6	21.0%	-13.7%
Samsung	160.0	20.8%	+3.5%
OnePlus	153.7	20.0%	+12.9%
Vivo	150.1	19.5%	-0.2%
Xiaomi	143.8	18.7%	-16.5%

The five brands sit within 2.3 points of each other. OnePlus grew fastest in 2023, while Apple and Xiaomi both declined. Among the 15 models, iPhone SE leads with 59.6M, followed by OnePlus Nord (57.9M) and Galaxy Note 20 (56.0M). The lowest, Redmi 9, still sells 44.7M, so there is no single standout product.

5. Cities

Delhi (203.9M, 26.5%) and Mumbai (127.2M, 16.5%) together generate 43% of sales. The other 17 cities average about 3.5% each, led by Ranchi (31.0M), Chennai (30.8M) and Rajkot (27.3M).

6. Payment methods

Method	Sales (M)	Share	Transactions
UPI	201.7	26.2%	1,011
Debit Card	195.7	25.4%	948
Credit Card	186.7	24.3%	947
Cash	185.1	24.1%	929

Customers use all four methods almost equally; UPI leads by only 2 points over Cash.

7. Customer ratings and age

Rating	Reviews
5 stars	1,488
4 stars	843
3 stars	652
2 stars	543
1 star	309

About 60.8% of reviews are 4 or 5 stars and 22.2% are 1 or 2 stars. By age, customers aged 46 to 59 contribute the most (249.5M, 32%), followed by 26 to 35 (189.2M), 36 to 45 (182.1M) and 18 to 25 (148.4M, 19%). The 46 to 59 band covers 14 years against 8 to 10 for the others, which partly explains its size.

8. Recommendations

1. Add new growth levers, since sales have been flat since 2023.
2. Push marketing in the 17 smaller cities to reduce dependence on Delhi and Mumbai.

3. Run promotions in September, the weakest month, and back the peaks in July, March, January and May.
4. Build on OnePlus momentum and investigate the Apple and Xiaomi declines.
5. Reduce the 22% of low ratings through better after-sales care and model-level review.
6. Target the 18 to 25 age group, for example with UPI offers.

Note: the data contains no Motorola brand; brands are Apple, Samsung, OnePlus, Vivo and Xiaomi.
